Life for Pavlyk - conquering SMA Life is the cost of one injection Goal: \$2 325 000 Raised: \$360 000 Pavlyk Motychka, who was diagnosed with Spinal Muscular Atrophy (SMA), was born in September, 2019 in Synevyr village, Zakarpattya, Ukraine. SMA causes muscle weakness and atrophy (when muscles get smaller). It can affect a child's ability to crawl, walk, sit up, eat, breath and control head movements. There is no treatment available in Ukraine. But an innovative medicine Zolgensma (Novartis) appeared in the USA 3 years ago. It is the most expensive medicine in the world. One bottle costs \$2.3 million. It is administered to the patient once. The citizens of Ukraine have to ask the whole world for donations to save their children. Zolgensma has to be injected by the age of 2 and the weight of 14 kg. So Pavlyk is now 1.8 years old and has 11.5 kg. His family has already lost their older son due to the same disease. Pavlyk has SMA type 1, it is the worst out of 4 types. Age is absolutely critical. We need to get this injection as soon as possible. WE have to knock everywhere and several times and believe in the kindness of people! Please, help Life for Pavlyk to give donation to the collection basket or send to the rectory. **Thank you and God richly bless you!**
